(C) Date of Publishing: 30th December (Submission Deadline: 20th November)

(B) Special Volumes: Based on the needs

(*) Acknowledgement of received information: Within Seven (7) days(**)

Final Decision (Accepted/ Rejected): Approx. 25+ days from the date of submission of the manuscript

NOTE: We're apologies to hear that your manuscript has been delayed in the review and acceptance process. It has been more difficult than normal to secure the reviewers needed for your work due to the enormous number of submissions (2023: submitted articles number 1059 & published number 159; 2024: submitted articles number 1537 & published number 224) and the packed schedules of many potential reviewers. We are working hard to review your paper thoroughly because we know how important it is to have feedback quickly.

5) Subject areas for Publication: IJERR encourages author(s) to submit manuscripts from Basic Sciences (Physics, Chemistry, Mathematics, Earth Science, Astronomy & Life Sciences), Applied Sciences (Engineering, Medicine, Agriculture & Environmental Science) and Allied Disciplines including Computer, Technology, Management, Health and Medical Sciences, Nutrition, Botany, Zoology, Forestry, Fishery, Sericulture, Apiculture, Pharmacology, Bioinformatics, Geography, Educational Statistics and Social Sciences (Psychology, Sociology, Economics, Anthropology).

6) Submission: ‘Only the ‘**Online submission process**’ should be used to submit the manuscript. The electronic copy of the paper should be submitted by the corresponding author(s) in compliance with the author's guidelines. Original research articles, conference/ seminar papers, and review articles must be previously unpublished.

Requirement of online Submission:

***After appropriate verification, the editor will only send TEMPLATE-3— an anonymised file devoid of affiliation and author names—to distinguished reviewers for peer review. In the double-blind peer-review process used by the International Journal of Experimental Research and Review (eISSN: 2455-4855), reviewers and authors are unknown.**

I -Template- Cover-letter-and-Declaration Form

II-Template- Abstract page [Note-1: Encourage everyone to provide their full name (1st name, middle name & Surname), full Affiliation, e-mail address (for all authors) & orcid id (for all authors). (xv) **Abstract:** Not exceeding 340 words (Standard: 250-300 words).

(xvi) **Keywords:** Maximum 6 in numbers* Arrange the items (keywords) alphabetically (Example- Basal media, callus, nodal segment, palmarosa grass,

somatic embryogenesis).** The first letter should be written in all capital letters. Without special words, the letters, in other words, are small.

(xvii) **Example for Keywords:** Amylase, bioprospecting, protease, soil nutrient, sustainable development, Sundarban

(xviii) **Abbreviations:** Standard abbreviations should be used throughout the manuscript.

(xix) **Introduction:** Should be clear and concise (References should be up-to-date in all the text areas and searchable on Internet/Google and unnecessary references may be avoided).

(xx) **Materials and Methods:** Should be a standard protocol(s) and mentioned/cited properly. This section should contain specific details about the materials and methods studied, the type of instruments and their generic name, what may be used, specialized chemical sources and related experimental details. Authors should ensure that any studies involving human or animal subjects conform to national, local and institutional rules/guidelines with prior approval from appropriate authorities such as ethical committees, review boards etc. The authors should mention clearly, in the materials and methods, the permissions obtained from relevant ethical committees/review boards for experiments using animals and human subjects and respecting their privacy, if any. The journal will not be responsible for violating any such rules/guidelines during the processing of the manuscript or even after publishing.

(xxi) **Results and Discussion:** Results should be precise and explained clearly in the context of the aims and objectives of the study. Results and Discussion sections may be separate or combined based on the author's requirements. Tables, graphs and figures should be explained clearly. The data should be statistically analyzed and the significance level be mentioned wherever necessary. The discussion part of the paper should be written in light of the significance of the obtained results. Finally, a conclusion of the work may be drawn, presenting the importance and relevance of the study. Note: Image: The main requirement for creating images of appropriate quality is that they have a minimum resolution of 600 dpi for colour images and 300 dpi for grayscale (or black and white) images. The image formats that are accepted are jpg, jpeg, and png.

Please note: Graphs, pictures, maps, charts, paintings, sketches and diagrams can all be termed images. Images must be incorporated into the article's manuscript content. The author can be asked for an image in high-resolution file format when the article is approved for publication. Before including photographs in the text, it is highly advised that they be prepared as described in the section below on image specifications.

Image Copyright: Even if the image is available on the internet, the authors must obtain written consent before using any images they did not create. The obligation to secure authorization to use the photos lies with the author, not the publishers. Before submitting the article, permission must be requested in

writing. Please visit the Copyright Agency Limited website for more details:

8. Reprints: The corresponding author will receive a PDF file of the published article via e-mail. The authors can freely access articles (available in PDF format) from our website (www.iaph.in). No hard copies will be provided.

9. Archive:

(i) International Academic Publishing House (IAPH) requires, as a condition for publication, that all data supporting the results in papers published in its journal (International Journal of Experimental Research and Review, e-ISSN: 2455-4855) is archived in an appropriate public archive offering open access. Authors can freely download the PDF file from our website with their articles.

(ii) We archive at the Internet Archive library, which is an academic American digital library that provides free public access to collections of digitized materials.

(iii) We also upload at Academia.edu (a social networking website), EuroPub, Index Copernicus etc.

10. Fees / Charges: Article manuscript handling fee: There is no submission fee for the International Journal of Experimental Research and Review (Non-Paid Journal). The "Article manuscript handling fee" should be paid by authors only to the Publisher after their articles have been reviewed and accepted for publication by editors. The "Article manuscript handling charge" is the only fee for Publishers. Each article that is published in our journal is open-access and immediately accessible online. An "Article manuscript handling fee" makes this feasible. The supply of online tools for editors and authors, the creation and hosting of articles, coordination with abstracting and indexing services, and customer services are all included in this. The 'Article manuscript handling fee', payable when your manuscript is editorially accepted and before publication, is charged to you, your funder, institution, or employer.

Example:

Editorial work: Online tools for journal editors, peer review, administrative support, content commissioning, and development of the journal.

Technical infrastructure and innovation: The production of articles, as well as their hosting, development, and ongoing maintenance and operation on websites and online journals.

Editing & production of articles: Articles' formatting, editing and composition, in addition to their inclusion in indexing services

Marketing of journal and content: Ensuring readers and authors know about the work published in the title. #Customer service: Addressing the concerns of writers and responding to authors and readers. Upon acceptance, a request for payment of the article processing charge is sent to the author. The author(s) need(s) to deposit the necessary fee, including payment through Paypal/ NEFT/RTGS/Online Transfer only.

(a) Indian Author(s): Rupees (Rs.) 12000/- (Twelve thousand only)

(b) Foreign Authors: U\$350 (Three hundred fifty Dollars)

Waivers:

Publishing high-quality research publications as much as possible is our main objective, as mentioned in our mission. Therefore, the following policy regarding waivers has been put into place. International Journal of Experimental Research and Review (IJERR) maintains a transparent waiver policy as-

*Only author(s) who are requesting on behalf of the cause are eligible for waivers and discounts.

*For the benefit of scholars who cannot afford to cover all of the expenses connected with open-access publication. This policy is intended to help support researchers. OR,

* All authors from Low-Income Countries may be granted a one-time up to 50% waiver. OR,

*All authors from Lower Middle-Income Countries may be granted a one-time up to 40% waiver. OR,

*Corresponding author from Low-Income Countries /Lower Middle-Income Countries may be granted a one-time up to 40% waiver. Please send a request for a waiver by e-mail to scholar@iaph.in (Must be CC to: chiefeditoriaph@gmail.com/ iaphjournal@gmail.com).
